Preface

Sago, a high carbohydrate rich food, is derived from tapioca tubers (cassava). Since 1976 our company has been manufacturing high quality, chemical free and good sponge sago in a well hygenic and well equipped manner.

Our registered trademark products GOLDEN BELL and SANTHOSH has been established as one of the most trusted brands of sago in most of the states all over India and has earned its hallmarks of finest quality and trust worthiness. We provide valued products at reasonable rates and have gained the trust and support of many suppliers and many many end customers.

Our research team has meticulously prepared various dishes of sago of which each one of them is unique in taste and is extracted from the indigenous recipes all over India starting from Maharastra's special spicy Kichadi to Tamilnadu's sweet payasam with explained ingredients and easy methods of preparation.

So grab our sago and serve a delicious meal. BON APPETITE !!

Technical Data Sheet - Tapioca Starch

DESCRIPTION:

Tapioca starch, is extracted from the roots of the cassava plant (*Manihot esculenta*). Industrial food ingredient recognized by its gelatinization at lower temperature, high bonding ability with water, neutral taste and excellent viscosity. Excellent thickener and stabilizer.

PREPARATION:

Suspend 10grams of Tapioca Starch in 100mL of water, boil for few minute until cloudy mucilage is formed.

BEST BEFORE DATE: One year from the date of manufacturing.

STORAGE:

Keep away from direct sunlight and store in cool, dry and well ventilated place.

Technical Data Sheet - Tapioca Starch

APPLICATION :

- Pre-cooked dishes.
- Sauces and soups.
- Meat industry.
- Paper industry.
- Textile industry.
- Glue industry.
- Dairy products.
- Desserts.
- Pastries and bakery.
- Confectionery.
